The **SubForm** object

### Example

List all the controls of a subform

```
Dim ocSubform As Object, osfSubform As Object, i As Integer, iCount As Integer
    Set ocSubform = Controls("FACTURE", "subform")
    Set osfSubform = ocSubform.Form
    iCount = osfSubform.Controls().Count
    For i = 0 To iCount - 1
        Print osfSubform.Controls(i).Name,
    Next i
    Print
```
